

TraditionDATA Heating Oil

TraditionDATA's daily and intraday price assessments show futures prices for the prevailing standardised heating oil contracts. Prices are quoted in mid format and are expressed in USD per GAL for each product and as a differential between products for the majority of contracts. Historical data is available by request.

Update frequency:

Intraday (model-derived snapshots)

Methodology:

Model-derived prices are based on a combination of electronic data feeds and broker input. Displayed prices do not represent currently actionable orders.

Curve coverage:

Curve coverage is dependent on market activity, and levels of granularity may fluctuate based on changes in liquidity. Curves typically span 22-23 months, 6-7 quarters, 2-3 halves, and 1-2 calendar years.
