

TraditionDATA Natural Gas Liquids

TraditionDATA's daily Natural Gas Liquids (NGL) price assessments show futures rates for the prevailing standardised NGL contracts in the US.

Prices are quoted in midpoint format and are expressed in US cents per gallon.

Contract rolls are as follows:

History since 2017 (or inception for recently added contracts).

Months
Final day
of the month

Quarters
Last day of
month before
quarter contract

Cals
Last business
day of the year

Tradition is represented in more than 28 countries and is one of the world's largest interdealer brokers in over-the-counter financial and commodity related products. TraditionDATA provides consistent, high-quality financial market data that reflect real price interest in global OTC swaps markets, covering FX & Money Markets, Interest Rate Derivatives, Credit & Fixed Income and Energy & Commodities.

Real-time, intra-day, end-of-day and historical pricing originate from Tradition's global brokerage business. In addition to comprehensive coverage of the most liquid markets, our extensive product and geographic coverage means we can penetrate illiquid markets to provide hard-to-find prices in developing products and regions.

Data can be delivered directly from Tradition or from one of our distribution partners, which include, among others, Bloomberg, ICE, NEX and Refinitiv.
