TraditionDATA

E&C

TraditionDATA
Refinery Margins

TraditionDATA's daily and intraday price assessments show forward prices for the prevailing standardised refinery margin contracts. Prices are quoted in mid format and are expressed in USD per BBL for each product. Historical data is available by request.

Update frequency:

Intraday (model-derived snapshots)

Methodology:

Model-derived prices are based on a combination of electronic data feeds and broker input. Displayed prices do not represent currently actionable orders.

Curve coverage:

Curve coverage is dependent on market activity, and levels of granularity may fluctuate based on changes in liquidity. Curves typically span 6 months, 4 quarters, 2 halves, and 2 calendar years.
