

Tradition-ICAP FX Options

Tradition-ICAP was formed in July 2000 by the merger of the OTC FX Options divisions of the Tradition Group and ICAP plc. Tradition-ICAP has offices in London, New York, Frankfurt, Copenhagen, Tokyo, Hong Kong and Singapore.

Tradition-ICAP conducts its business as an independent intermediary in OTC FX Options. In November 2001, the company integrated the Volbroker system into its currency options business. This created an inter-dealer broking consortium that combines the strengths of voice brokered liquidity together with the market's leading FX Options electronic broking platform.

Volbroker was the first electronic inter-dealer trading environment for FX Options. Designed by FX options traders for real-time performance, with liquidity support from the world's top market makers, Volbroker is the leader for electronic price transparency and efficiency in the USD 5 Trillion currency derivatives market.

Tradition is represented in more than 28 countries and is one of the world's largest interdealer brokers in over-the-counter financial and commodity related products. TraditionDATA provides consistent, high-quality financial market data that reflect real price interest in global OTC swaps markets, covering FX & Money Markets, Interest Rate Derivatives, Credit & Fixed Income and Energy & Commodities.

Real-time, intra-day, end-of-day and historical pricing originate from Tradition's global brokerage business. In addition to comprehensive coverage of the most liquid markets, our extensive product and geographic coverage means we can penetrate illiquid markets to provide hard-to-find prices in developing products and regions.

Data can be delivered directly from Tradition or from one of our distribution partners, which include, among others, Bloomberg, ICE, NEX and Refinitiv.
